Re Distinction Contract

Over the years, Distinction has undertaken two major projects for Premview Properties Ltd;

In 2000 Distinction helped to design, implement and install the furnishings of thirty one apartments at Block A of Port East Apartments 20 Hertsmere Road London E14 4AZ. This was an extensive undertaking to provide not only the main furniture but full kitchen implements, pictures, linen and portable electrical appliances etc.

In 2004 Distinction were also awarded the contract to fully furnish forty two apartments located on 5 floors between the 22nd and 28th floors of No1 West India Quay 26 Hertsmere Road London E14 4EG. This was another extensive undertaking to provide all the furniture for the apartments in a modern living style.

In addition to these projects Distinction have recently been instructed to supply and install 62 replacement sofas into one of our buildings.

In all of our interactions with Distinction, we have found dealing with them to be straight forward, and they have always completed their work for us in a highly professional manor, and with enthusiasm. The installation processes have been very organised. The operatives on site have always been very courteous and they have not been afraid to work hard to get the job done, sometimes under difficult circumstances, and knowing that we have had deadlines to meet. Mark Elliot's input and attentiveness has always been appreciated and valued. The company structure with Mark Coad as a director being responsible for controlling the installations, has always provided for a smooth delivery and installation process.

I would have no reservation in recommending Distinction to handle a large design, supply and installation contract.

Yours sincerely

Darrel Samson
Director
Premview Properties Limited
