

Distinction Contracts at Radisson Blu Bristol and Cardiff

Distinction Contracts Ltd, a leading manufacturer of contemporary contract furniture, has collaborated with Radisson Blu to create two bright and stylish city centre hotels.

The Radisson Blu Bristol is a tastefully designed, striking building located close to the city's cultural treasures. It is a dramatic metal and glass skyscraper near the Millennium Stadium and the regenerated Cardiff Bay area.

The 176 guest rooms in Bristol and 215 in Cardiff installed by Distinction Contracts provide guests with a vibrant, relaxed and functional space. To allow the guest greater choice, Radisson Blu offers business class rooms and suites in Fashion, Fresh or Chic designs with differing colour schemes.

Furthermore each style features a carefully thought out combination of well crafted, contemporary furniture and imaginative finishes ensuring that guests feel inspired.

The bar, restaurant and other communal areas at both sites were also furnished by Distinction

Contracts. In the Radisson Blu hotel in Bristol guests and locals alike are drawn to the Filini restaurant. A tempting menu of innovative Italian dishes complemented by comfortable chairs and high back bench seating make the restaurant an ideal place to experience good food and to unwind.

The furniture for both hotels was supplied and fitted at the same time. This required meticulous planning and a dedicated team of production specialists, project managers, administrators and fitters. With almost 25 years of experience manufacturing bespoke furniture for the hotel and leisure industry Distinction Contracts fulfills the requirements to complete projects of this size to a high standard.
